### SHRUBB COLLAPSED IN 25TH MILE

Longboat, Winning Marathon, Shows Himself a World Beater-Time was Slow-Shrubb Got Big Lead, then Lost -- Eastern Connecticut Baseball Meeting.

New York, Feb. 5.—Maintaining an even, swinging stride, which rarely varied, Tom Longboat, the Onondaga Indian from Canada, won the indoor Manrahon race tonight at Madison Square Garden, when victory seemed almost within the grasp of the plucky English champion runner, Alfred Shrubb, who collapsed in the 25th mile, leaving the Indian to finish alone.

Longboat's time for the race was 2 hours 53 minutes 40 2-5 seconds, which is nearly eight minutes behind the record made by Dorando, the Italian, in his race with Johnny Haayes, the Olympio winner, last fail. The Indian finished in fine fettle and was in no

A large crowd gathered long before the doors of the big amphitheatre opened the way to the saucepan track, where the two contenders were to measure strides. The best time over the garden course was made by Dorando, the Italian, with a race with John Haves, winner of the Olympic Marathon last Summer.

Shrubb, however, continued to open up the distance between himself and his competitor, and the 15th mile mark found him 61-2 laps ahead. Shrubb's time for the 15 miles was 1 hour 28 minutes 28 4-5 seconds.

Shrubb's running was a revelation to the spectators, who continually cheered the Englishman as he sped steadily around the track and drew sether away from Longboat. The Inventor of the continual of the spectators, who continually to cert down this lear the 12th mines at the 12th mines on the list.

Shrubb appeared in per-fect condition when he entered his dressing room at the garden. The Indian also made a good impression as he donned his running attire. The stirring of activity was caused by one or two occurrences to which an unfavorable interpretation was given from the standpoint of holders of se-curities. The character of the market curities. The character of the market, however, was not radically changed from the neglected state which has prevailed all this week. Apparently the professional element had stretched their sources to the limit on the buying side of the market, and finding no following to held them, turned to the seiling side for a turn. To expedite the downward movement, they professed apprehension over the news of sned apprehension over the news of an other projected vacation by E. H. Matters of interest for the Eastern Connecticut Baseball league, especially concerning the admission of new clubs to increase the present circuit of six, will be dismussed at a meeting at Danielson on Sunday afternoon. President Reeves will call the meeting to order at 2.20, expecting a full attendance of all the managers in the league.

league.

At the first meeting of the season, two weeks ago, there were four applications presented, J. J. C. Stone applying for a franchise for Norwich, J. A. Ramsey for Central Village, President Reeves for Danielson, and J. T. Mc-Manus putting in a provisional application for Webster. It is understood that there will be opposition to granting any new franchises at all, and the probable outcome of the meeting will be that the managers will decide to carry on the circuit as before, and do ing any new franchises at all, and the probable outcome of the meeting will be that the managers will decide to carry on the circuit as before, and do nothing to disturb the harmony which the control of the control o characterized the opening season last

New Britain Will Have Most of Last Year's Nine, with Eight Youngsters to Try Out.

Billy Hanna has announced the list of players he has corralled for the coming season for the New Britain team. His reserve list includes Pitchers Brown, Coughlin, Treat and Padron, Catchers Ruffange and O'Mara, Infielders Bunyan, Burns, Cabrera, and Almeida, and Outfielders Waterand Almeida and Outfielders Waterman, McCabe and Marsans. A great collection to start with. Chample Ward, who was taken by Providence last year, has been returned to New Britain, Besides these men of known quality, Manager Hanna has signed eight youngsters for trial, two pitchers, five infielders and an outfielder. He adds that he may pick up another Cuban or two on his trip to the isle in a few weeks.

The only change in the New Britain situation is the announcement that Chief Miller, who was let out to the Oakland club in exchange for Schincel, lead.

To Go Against Weston's Record. T. S. Arthur of Hackensack, N. J., who will start from Portland, Me., in May to beat Weston's record across the continent, left Bangor this week on a practice walk for St. John N. B., by way of Ellsworth and Calais. From St. John he will go to Halifax and farther east, planning to return and reach Portland early in May and rest there a few days before starting on his transcontinental walk. He takes the down east walk, which is through a snowbound country, to get himself in condition, he says. He has been in

condition, he says, the has been in Bangor for two weeks, taking from 10 to 20 mile walks dally.

Arthur, who weighs 162 pounds, is 27 years old and is of athletic build. He says that he is confident that he can beat Weston's record. He will be backed by a New York syndicate in his continental trip.

The building of the ice palace in Montreal for the carnival of winter sports, which opens on February 10, is progressing favorably. Already more than 5,000 blocks of ice have been placed in position, each block measuring ten cubic feet and weighing some 400 pounds. The main tower of the palace, the King Edward, is now well strated, being erected to a height of some 30 feet or more (this tower will be 190 feet high) while the companion towers—the Queen Alexandra and the Prince of Wales—are up to about the same height.

THE ALVEOLAR METHOD

What It Does For Toothless People By means of the wonderful Alveolar Method we are able to give back to

a patient the full set of teeth he or she started in with in the beginning. All we require is two or more teeth in each jaw to work from, and we shall not resort to plates or ordinary bridgework in the process of the shall not resort to plates or ordinary bridgework in the process of the work. Your mouth will be free from incumbrances.

Before we accomplish this result we put the gums and the natural teeth in a healthy condition, tightening the teeth which may be loose and ouring pyorrhea if the patient is afflicted with that dreadful disease.

All of the teeth we supply are practical teeth; each set in its own socket following nature's plan, so that the strain is equally divided. One is able to bite on these teeth and use them in exactly the same manner as he would his natural teeth. They match nature's teeth so closely as to deceive experts. They are beautiful to look at and a source of constant delight to the one who wears them.

A PAINLESS PROCESS

An impression has gone forth that there is some surgical operation connected with the Alveolar method of restoring missing teeth. Some people have written in to know if we bore down into the hone and put the teeth in on pags! Others have an idea we set the new teeth into the sockets where the

natural teeth were originally.

It is quite natural that some unthinking people would ask such questions, and in order that they may be fully answered we will state that there is no boring, no cutting, no implantation about the Alveolar Method, nothing about the work that is painful while it is being done or after-Patients leave the office with the Alveolar teeth in place and at once begin chewing meat, eating candy, toast, or anything else with the same comfort they would enjoy if every tooth in their head had grown there.

If we couldn't promise this and make good on the promise, the Alveolar Method would not be a success. It would be no better than ordinary belowers or partial plates.

WE ARE GENERAL PRACTITIONERS

All Forms of Dentistry Treated by Experts. While the Alveolar Method is our great specialty, we are general dental ractitioners as well. From the simpest filling to the most intricate piece of porcelain work, our experts are at the service of the public.

Naturally we would do such work well, much better than it could be done in a one-man office, for the operators employed here are all men of the very highest skill. They need to be to do the Alveolar work. Bunglers would not be tolerated in our office for a day, neither would dental students. We demand the finished craftsman, both at the operating chair
